

# University of Virginia

## CHARLOTTESVILLE

### The Following Departments of Study Are Represented:

#### The College.

In the College, courses are offered in the following culture subjects: Latin, Greek, French, Spanish, Italian, German, English Language, English Literature, Education, History, Economics, Philosophy, Mathematics, Applied Mathematics, Astronomy, Physics, Chemistry, Geology and Biology.

By virtue of the elective system, the undergraduate can select any one of a large number of liberal 4-year courses, leading to the degree of Bachelor of Arts.

#### Dep't of Graduate Studies.

This department, in which the same subjects are taught as in the College, offers to Bachelors of Arts the opportunity of specializing in such directions as they may choose and of acquiring the methods of original research. The graduate courses are intended chiefly for those who desire to take the degree of Master of Arts or Doctor of Philosophy, but may be taken by any student who wishes a deeper knowledge of any subject than is to be gained from the collegiate courses.

#### Dep't of Engineering.

Four distinct courses are offered, leading to degrees in Civil, Mining, Mechanical and Electrical Engineering, and requiring for their completion four years each. Graduates of College admitted with advanced standing in Mathematics and the Sciences. Special two year courses are arranged for students who are unable to afford the time and money needed for completing the full degree course of four years.

#### Dep't of Law.

The course of study is distributed over two years. The candidate for the LL. B. degree is required to attend two full sessions of the Law School. An excellent special course is provided for students who can attend but a single session, and who are not candidates for the degree. The Library facilities are excellent.

#### Dep't of Medicine.

ORGANIZED in 1825, and in continuous operation except one year since that date, this department offers thorough medical instruction in the environment of an old and famous University.

The ENTRANCE REQUIREMENTS are the completion of a three-year high school course or its equivalent; after January 1, 1907, they will also include Physics, General Chemistry and General Biology.

The COURSE is graded, and extends over four years of nine months each. There are good LABORATORY FACILITIES in Chemistry, Anatomy, Histology and Embryology, Bacteriology, Pathology and Clinical Diagnosis. CLINICAL MATERIAL is furnished by a new hospital, the property of the University, with about five hundred patients annually, and by the Dispensary, with about two thousand cases annually.

**\$10 covers total cost to residents of Virginia of tuition and all fees to the University, in either of the Academic Departments.**

The growth of the University can be best illustrated as follows:

The session of 1906-'07, as compared with 1900-'05, will show an increase in the teaching force of over 50 per cent.; as compared with 1905-'06, an increase of over 30 per cent. In the way of new buildings, plans are being perfected, and complete provision for cost has been made, for a new wing to the Hospital, a residence for the President, and a Commons Hall. Three new Laboratories are provided for, as well as additional equipment for two of those in present use.

For further information and catalogues address **EDWIN A. ALDERMAN, President.**
